EDUCATION

Bachelor in Computer Science

Lebanese International University

📅 01/2016 - 2021

PROJECTS

Transportation Management System

🔗 https://github.com/ausminatalli/Trasnportation

Designed and implemented a streamlined bus transportation system featuring secure payments, with admin oversight for station, bus, and schedule management, user-friendly ticket booking, and driver registration functionality.

Full E-commerce Website

🔗 https://github.com/ausminatalli/FootVibe

Created a robust e-commerce platform using MERN stack, enabling users to explore products, manage carts, create wishlists, and track orders, while providing admins with a centralized dashboard for efficient control over products, user orders, and site content.

HR Management System

🔗 https://github.com/ausminatalli/esa_hr_system

Created a web-based HR Management System to facilitate efficient employee-HR interactions, enabling employees to submit requests, HR to respond promptly, and facilitating secure document uploads.

Student registration system for ESA
